Proper cable management is a science, and if implemented and managed properly it can reduce troubleshooting time dramatically. Many clients considered front side cable management as the most suitable for particular solution. Besides a HIGH DENSITY WIRE MANAGEMEMT – HDWM which is the best solution for front side cable management, the customer can chose from wide range of standard cable management systems, sufficient for small installations.

HOLDERS		
Code	**Description**	**Note**
Holders of vertical wire management panels and cable brackets - **HVMF-xx & HVMF-xx-F**	Used for installation of vertical wire management panels and cable brackets (ordered separately) in 800 mm wide free-standing racks.	• Set includes 2 pieces • Mounting kit included • Oval openings in base of ducts allow front to rear cabling (for HVMF-xx only) • Color black (RAL 9005)
Holders of 19" equipment - **HVMP-xx**	Used for vertical installation of 1U 19" equipment (3x on each panel) in 800mm wide free-standing racks. Useful solution when customer want to expand installation space or install racks ROF/RDF to the system with cooling units and need to separate cold and hot air and use separation frame on standard rack with L type of extrusions.	• Set includes 2 pieces • Mounting kit included • Color black (RAL 9005)

COMPATIBILITY	
Code	**Compatible with**
HVMF-xx & HVMF-xx-F	• Racks width 800 mm with L-type extrusions • Plastic ducts 80x60 mm DP-VP-VR-xx (HVMF-xx oval openings in base of ducts allow front to rear cabling) • Plastic cable brackets for horizontal and vertical management – VO-40/50, VO-40/80, VO-80/60, VO-80/80
HVMP-xx	• All 1U 19" components up to weight 3kg • Separation frame – DP-ROF-CW with L-profile of extrusions • Racks equipment by extrusion type L with width 800 mm • 19" 1U Blank panel DP-ZA-1U or DP-ZA-1F – recommended accessories when separation frame used • 19" 1U Vented panel with Brush DP-BP-03 or DP-BP-03-D • 19" HDWM cable manager – HDWM-HM-1F or HDWM-HM-1FR • 19" standard cable manager DP-VP-P1 or DP-VP-P5
